Bringing the human factor to facial recognition

Banned Supporters still getting into your stadium?

Keep getting fined after crowd trouble?

Violent fan protests week after week?

We work with Football Clubs and Law Enforcement to resolve these issues, whether it be by conducting thorough CCTV reviews and linking offenders to multiple incidents or by live deployments to spot banned fans, missing children and vulnerable adults, ticket touts or hostile reconnaissance.

Our **Football Safety Unit** will work with you to resolve these issues and the issues which affect your venue and club.

The world is changing and so is the way we protect our venues, don't get left behind!

Our operatives have been independently and academically proved as human Super Recognisers  
Trained to;

- Identify banned supporters, ticket touts etc
